## PROFILE

I like front-end development and have a solid understanding of digital marketing management. With a keen interest in UI/UX design, I focus on creating user-friendly and visually appealing digital experiences. While still gaining experience in the field, I am committed to enhancing my skills and contributing to projects that emphasize user-centric design and functionality. Driven by a passion for continuous learning, I am eager to collaborate and deliver impactful solutions that integrate both web development and digital marketing strategies.
